Residential on 13 Acres

La'i Loa, Wailea/Makena, HI

Island Allure from a Captivating New Vantage
Gently commanding the top floor of the villa building, the sublime penthouse residence offers approximately 2,587 square feet of modern living space and truly unsurpassed ocean vistas. Uncover true luxury in Wailea with this four bedroom home in the sky, dazzling with an open floor plan, junior suite, and full master suite with private lanai. A grand sliding window wall connects the great room to an expansive lanai of approximately 778 square feet complete with an exterior wet bar and built-in BBQ, ideal for unforgettable sunset dinners with friends and family. The entire western (makai) portion of the penthouse floor plan is occupied by the expansive great room and the master suite, each connected to the lanai outside by the home's defining feature: a sliding window wall. In addition to the expansive master suite, a junior suite with en-suite and two additional bedrooms mean you will never be short of room. With the optional three bedroom plus den configuration, the home would feature the master suite plus two junior suites and a den that flows directly in to the great room. Serenity comes in a timeless palette of warm wood tones, crisp white and cool grays in the spacious five-piece bathrooms of this
