Versatile Home with Income Potential & Solar Power!

This unique property, located three miles from the beautiful Hawaii Volcanoes National Park, offers incredible flexibility, comfort, and value. The permitted upper level was operating as a successful short-term vacation rental, adding both income potential and appeal for investors or owner-occupants alike. Here, youâ€™™ll find a bright, open-concept floor plan with a spacious kitchen, living room, one bedroom, and one bath. Open-beam wood ceilings create a warm, airy ambiance, while the large covered lanai invites seamless indoor-outdoor living.

The unpermitted lower level expands the possibilities with two additional bedrooms, a bathroom, a living room, kitchenette, laundry room and two storage areasâ€™™perfect for extended family, guests, or creative use.

Eco-conscious buyers will love the 22 owned solar panels and dual water catchment systems with a UV water filtration system, ensuring clean, sustainable and cost-efficient living. The upstairs kitchen is well-equipped with a gas range featuring 4 burners plus a grill, stainless steel refrigerator, and dishwasher. Wall-mounted propane heaters on both levels provide year-round comfort.

Outdoors, the home is set back from the road for privacy, secured by a gated entrance, and surrounded by landscaped grounds. A large parking area accommodates multiple vehicles, and a sizable workshop and greenhouse area with
